 - **Architecture & Tools:** MVC, SOLID, Clean Code, Git, Jira.
-

PROFESSIONAL EXPERIENCE

OSF Digital | SFCC Backend Developer - *Oct/2022 – Jun/2025 (2 years and 9 months)*

Worked on high-traffic global e-commerce projects, such as **Tiffany & Co** and **Toys"R"Us**, focusing on evolutionary maintenance and implementation of new features within the SFCC ecosystem.

- **Identity Integration (Kakao Sync):** Developed the Single Sign-On flow, configuring the technical integration of terms of service, consent, and user registration via API.
- **Personalization & Refactoring:** Refactored the integration with **Dynamic Yield**, adjusting page scripts and performing tests to ensure the personalization of carousels and item lists.
- **Performance Optimization:** Maintained integrations via REST/SOAP APIs and resolved critical server-side bugs to ensure platform stability.
- **Technical Documentation:** Reviewed technical documentation (TSD/FSD) and created *User Guides* to facilitate the configuration of new features by the client via Business Manager.

Maxtherm Isolamentos Térmicos | Logistics Analyst - *Jul/2021 – Oct/2022 (1 year and 4 months)*

- Management of the logistics department and coordination of shipment inspections.
 - Strategic performance in crisis management and structuring operational procedures.
-

EDUCATION

- **Industrial Mechatronics Technology** | FATEP (Faculdade de Tecnologia Pentágono)
- *Completion: December 2007*
- **Highlights:** Project development, Industrial Control and Automation, PLC, and AutoCAD.
